INBIT – Biotechnology centre
Room 111, Kamenice 34, BrnoELIXIR PROJECT
INTRODUCTION

ELIXIR unites Europe's leading life science organisations in analyzing and safeguarding the massive amounts of data being generated every day by publicly funded research. It is a pan-European research infrastructure for biological information. ELIXIR will provide the facilities necessary for life science researchers - from bench biologists to cheminformaticians - to make the most of our rapidly growing store of information about living systems, which is the foundation on which our understanding of life is built.
