

**SYLICA WORKSHOP:****Biomaterials for tissue engineering**

You are cordially invited to the workshop

**WHEN: 08/09/2014, 9:30**

**WHERE: University Campus Bohunice, building A11, room 235,  
Kamenice street**

**Speakers:**

**Laura Kaufman, Columbia University, New York City, USA**

Collagen Gels: From Fundamental Questions to Applied Goals

**Dáša Doležalová, Masaryk University, Brno, Czech Republic**

Stem Cell-based Therapies in Neuroregenerative Medicine

**Viera Khunová, Technical University, Bratislava, Slovakia**

Polymer nanocomposites based on natural nanotubes for medical applications

**Lucy Vojtová, CEITEC Brno University of Technology, Brno, Czech Republic**

Third generation scaffolds for bone regeneration

**Lucie Wolfová, Contipro, Dolní Dobruč, Czech Republic**

Hyaluronan based hydrogels for tissue engineering

**Alexander Werner, BioBank, Germany**

Freezing and long-term storage of biological samples - quality requirements and technical solutions

**Stefan Chabierski, BioBank, Germany**

ASKION c-line<sup>®</sup>-a flexible and automatable system solution for Cryo-Biobanking
